LANGUAGE

- Slovene
- English

ABOUT ME

Software developer with 3+ years of experience in mobile and crossplatform development, with additional background in web technologies. Skilled in iOS (Swift), Flutter, and Unity, and familiar with HTML, CSS, JavaScript, and WordPress. Experienced in adapting to new technologies quickly, collaborating in international teams, and contributing to both large-scale and startup-style projects.

EXPERIENCE

Software Engineer

May 2022 - Dec 2025

Blub Blub Inc., Ljubljana

Key member of the engineering team responsible for developing and maintaining multiple high-impact mobile applications. I successfully transitioned between native iOS, Flutter, and Unity projects to meet evolving product goals, managing the full development lifecycle for apps reaching millions of global users.

iOS:

- Maintained and scaled 3 high-traffic iOS applications (Swift/SwiftUI) serving millions of global users. Managed the full release cycle, including CI/CD pipelines, App Store Connect, and beta testing via TestFlight.

Unity:

- Developed and optimized core gameplay mechanics for Nimi Adventures using C# and Unity.
- Implemented subscription and premium content flows

Flutter:

- Helped build a new cross-platform app called Speechblubs PRO in Flutter from the ground up.

Web Tech Intern

Sep 2020 - Nov 2020

Morela Okulisti, Ljubljana

- Gained hands-on experience with HTML, CSS, JavaScript, Odoo, MySQL, Python, Supported digital marketing campaigns, website management, database updates.

Design Intern

Feb 2017

The Definitive(ly) Good Guide Co. Ltd, Malta

- Created marketing materials in Photoshop/Illustrator.
- Posting posts on website (wordpress).
